I like the way that the doctors are set up here. I can go to two places, one place for my basic internist and one place for all of my specialists. In the past, I was traveling all over three different cities to go to all of my doctors. Having all of the disciplines in one place is just a real, real good thing.

“ ”

My experience was very good when I went to see the specialist. It was coordinated through The Villages Health. The specialist had my medical history, my medication history and we could focus on my current issue.
