Miguel Mantilla

MD, FACP

Internal Medicine

HOMETOWN

Maracaibo, Venezuela

UNDERGRADUATE

La Universidad Del Zulia

MEDICAL SCHOOL

La Universidad Del Zulia

BOARD CERTIFIED

American Board of
Internal Medicine

“Growing up in a community where healthcare resources were limited, I witnessed firsthand the pivotal role primary care played in the health and well-being of my neighbors and family. This steered me to the practice of primary care after my residency where patients find continuity, trust, and a sense of being truly cared for. Through prevention, early intervention, and long-term management, primary care improves lives one step at a time.”
